

Our Vision At Hickory Dickorys

We provide excellent day care for children in a relaxed, friendly and welcoming atmosphere.

We work in partnership with parents or carers to make sure that your children get the best possible start in life.

We are approachable and interested in the development and achievements of your children, as well as you the parents.

We follow the EYFS curriculum which promotes each child's individual development and builds upon previously gained knowledge.

We provide a rich and stimulating environment in which your children can explore and extend their knowledge in safety and without inhibitions.

We encourage thinking of and caring for others, and through this to foster positive emotions and good standards of behaviour.

We promote self-esteem in every child and we praise and reward every achievement and effort.

We promote Healthy Choices, in food, exercise & personal hygiene.

We promote a high standard of skills to encourage independence, aiding that important first step into school life.

We offer equal opportunities to all children and adults by treating everyone as individuals and by respecting and supporting differences in language, culture and ability.

We provide qualified practitioners who are well-motivated and enthusiastic in their role of caring for your child.
